

USDA ACCEPTED Portable MIXERS

MixMor currently carries 26
USDA Accepted Portable Mixers for
applications within the Food, Dairy,
Pharmaceutical and other
Industries that require
sanitary features.

Incorporated into the MixMor design is the highest quality of stainless steel and electroless nickel finishes ensuring that MixMor mixers comply with the most stringent USDA government requirements. Features include:

- Nickel Plated Air Motors
- Paint-Free Washdown Duty Electric Motors
- Stainless Steel Clamp Assemblies
- Food Grade Lubricants
- Stainless Steel Fasteners
- Crevice-Free Housings
- Stainless Steel Quill Shafts
- Sanitary Finish on Shafts and Impellers
- Impellers Welded to Shafts

MixMor mixers can be designed with any combination of these and other features to meet your individual requirements.

Contact your MixMor representative today to discuss all your company's sanitary mixer needs.

MixMor . . . A leader for over 40 years.
